

# Sprint 1: „Problem definition“

Team name:

Which problem do you want to solve (first ideas)?

Feedback / learnings from first iteration about your deliverables

☐ Team on board?

What have you learned so far?

Have you done following deliverables:

☐ 5 Ws of problem definition

☐ Persona

☐ Empathy map

☐ Problem definition

☐ ...

## Retrospective

*What went well, what could have been better and what do you need to improve in your team in the next sprint?*

1. Define a moderator for your retro
2. Use *retrotool.io* (start with liked, learned, lacked)
3. Think about **your** team work (5 minutes individually)
4. Share and cluster the results in your group
5. Define 1 or 2 actions items which you want to improve within the next sprint
